Website meeting list discussion—Sarah brought up that she doesn't know how we want to handle groups that are outside of Lincoln districts. Belmont had several meetings that are in district 3, despite being in district 29. Wanting to figure out how to organize the feed for how meetings are included on the area website. Discussion. Sarah motioned to link to the geographic “search for meetings near me” and link it to Intergroup. Use this as a temp solution using 68503. We decided to keep a single grouping of 25miles from 68503
